

HIGH SWEET TABLETING

NUTRAFLOW® SWEETENER COMPOUND

There is one key-element in producing sweetener tablets: EFFICIENCY. Only by controlling cost and process attractive profit can be made in this highly competitive market.

Meggle Nutraflow® is the ideal basis for your success: A pure white Sweetener compound, consisting of Aspartame and Lactose. A product with a pleasant sugar-like taste, smooth handling and hassle-free processing: just blend with disintegrant/lubricant and start tableting. Extremely efficient by Direct Compression due to its excellent flow properties.

No dusting, but always high speed!
