

WHAT A FILLING!

NUTRAFLOC® SWEETENER COMPOUND

There is only one key-element in sweetener powder production: EFFICIENCY. Only by controlling cost and process attractive profit can be made in this highly competitive market. Meggle Nutrafloc® is the ideal basis for your success: A pure white Sweetener compound, consisting of Aspartame and Lactose with a pleasant, sugar-like taste.

Nutrafloc can be filled directly into sachets. Extremely efficient due to its favourable particle design. No dusting, optimal flowability.

What a sweet filling!
